[Hantek 6022be Driver For Mac](#)

Usually, the Software program works great However for some reason VM appears to limit the options of the DSO considerably: in the horizontal DIV i can only select period runs between 10ut and 2ms i9000 or the system crashes instantly.. I got a issue though: Since i only have Mac pc and Linux computer systems, i feel compelled to run the Software in a Windows XP Installation in a VirtualBox VM on my Macintosh.
